Portraying Gratitude

Honoring our Veterans Through Design

It is a constant Designer's question, "How do I make Veterans feel welcomed and honored in our VA medical facility?" Especially because we know that there are different places they would rather be than experiencing health care issues and needs.

In the spirit of recognizing the service and sacrifice of the VA patient, Creative uses a variety of specialty art items and features. We are committed to creating unique and dynamic designs that visually portray our gratitude.

Showcasing Veterans' stories accompanied by photographs brings a depth to this "Honor Wall" found at the VA Medical Center Charleston, S.C. Facility Interior Designer, Cori Merritt, aspired to include patients, staff who have served and the local community. A wall that shows the diversity of our veterans with one common goal of defending our country.

Portraying Gratitude

Groupings of Patriotic Artwork show the sense of pride and accomplishment of patients and their families while reminding staff of our mission.
